

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## TO COLLECTORS AND OTHER OFFICERS OF THE CUSTOMS.

TREASURY DEPARTMENT,

*April 15, 1857.*

In performance of the duty imposed by law on this Department, of superintending the collection of the public revenue, the attention of collectors and other officers of the customs is called to the provisions of the several acts of Congress levying duties on imports, which will be in force on and after the first day of July next.

The tariff act of 30th July, 1846, having been modified by the act of the 3d March, 1857, "reducing the duties on imports, and for other purposes," the provisions of the last mentioned act are hereto subjoined, to which is added a tariff of duties as amended, arranged in schedules, under the provisions of the act of the 3d March, 1857, applied to the act of 30th July, 1846; and for more convenient reference, there is also subjoined a comprehensive list, alphabetically arranged, of all the designated articles expressly made liable to duty, or exempted therefrom, with their respective schedules and rates of duty, when dutiable, indicated thereon.

As the change in the law regulating the rates of duty by the act of the 3d of March last, disturbs but to a slight extent the classification of imports made by the tariff act of the 30th July, 1846, and is confined principally to a change in the rates of duty, the construction heretofore given by this Department to that act is still in force, and applicable, except where that law has been modified by the act of 3d of March last. Collectors of the customs will find the decisions of the Department, in various cases presented under the act of 1846, embodied in General Regulations issued by the Department on the 1st February last.

It will be borne in mind that the provisions of the 20th section of the tariff act of the 30th August, 1842, a copy of which is subjoined, are still in force, and furnish a rule of construction to be applied to articles not specially designated in the several schedules of the act of 3d March, 1857. These provisions, properly applied, will aid the

officers of the customs in assigning articles of import, not designated in terms in the tariff, to the schedule to which they are to be regarded as belonging, in reference to their liability to duty.

All other unenumerated articles, not so susceptible of classification, will be liable to the duty of fifteen per centum, as prescribed in the first section of the act of 3d March, 1857.

By the fourth section of the said act it is provided, that all goods, wares, and merchandise which shall be in the public stores on the first day of July next, shall be subject, on entry thereof for consumption, to no other duty than if the same had been imported, respectively, after that day. Merchandise, therefore, in public store on the first day of July next, or in bond under the warehousing laws, whether deposited in any warehouse authorized by law or passing in transitu, under bond, from one part of the United States to another, will, irrespective of the date of their original importation or bonding, be subject, on withdrawal for consumption, to the rates of duty prescribed by the act of 3d March, 1857.

It has been represented to the Department that, under the designation of "galvanized tin plates or sheets," there have been attempts to introduce sheet iron, covered with a thin coating of tin, the purpose being to pass the iron through the custom-house at a lower rate of duty as a galvanized tin. The attention of collectors and appraisers is specially directed to this subject, and they will, on the entry of all articles purporting to be tin plates or sheets, galvanized or not, carefully inspect the articles, and admit nothing as tin plates or sheets that were not clearly known as such in commercial parlance at the passage of the tariff act of 1846. Where plates or sheets of iron or other metal are attempted to be introduced in evasion of the law, under a false designation, the proper proceedings will at once be instituted to enforce the forfeitures and penalties provided by law ; and in all cases where no fraudulent attempt is manifested, the duty to which the articles, according to their true character, are liable under existing laws, must be levied and collected.

A question has recently been presented to the Department in regard to the exemption from duty of certain articles claimed to be "paintings," and as such falling within schedule I of the tariff. It is decided by the Department, that the "painting" referred to in that schedule, as entitled to free entry, must be an object of taste recog-

nised as a painting in the usual acceptance of the term ; and that paintings on glass specially provided for in schedule C, on porcelains, alabaster, china, marble, plaster, or similar materials ; on plates, goblets, vases, or any other utensil ; or paintings capable of being converted into breastpins, eardrops, or other ornaments to be worn on the person, are not entitled to free entry under the law.

In schedule I, it will be seen, there is a provision for the admission free of duty of sheeps' wool, unmanufactured, of the value of twenty cents per pound or less at the port of exportation. The question has been submitted, whether, in estimating the value in such cases at the port of exportation, the expenses of packing, commissions, and other charges incident to the shipment of articles for exportation, are to be included.

The value referred to in this provision of the law, is the current market value or price at which the article in question could be generally purchased, per pound, and does not include the charges and expenses mentioned, or other charges incurred in the mere shipment, or preparation for shipment, after purchase.

Commissions and shipping charges are, however, under the laws levying duties on imports, to be added to the foreign market value of imports, as a part of the value on which duties are to be assessed on entry in ports of the United States ; but they constitute no part of the value in the foreign market as referred to.

In regard to the fifth section of the act of the 3d March, 1857, providing for an appeal to this Department from the decision of the collector as to the rates of duty to which imports are to be subjected, collectors are instructed, that whenever such appeals are taken they are to forward at once to the Department a report of their decision, and the grounds upon which it was based, together with a report in full on the subject from the appraisers, if any, at the port, accompanied by samples, if deemed necessary, to afford a clear understanding of the matter in controversy between the importer and the customs authorities.

As connected with the operation of the tariff laws now in force, the attention of collectors and other officers of the customs is called to the subjoined acts of Congress, approved the 2d and 3d ultimo, amendatory of the 28th section of the tariff act of 30th August, 1842,

and the 8th section of the tariff act of 30th July, 1846, and which went into effect at the several dates of their approval.

In the act first mentioned, it will be perceived that the prohibition of the importation of certain articles is made so comprehensive as to embrace descriptions of imports not affected by the law as it originally stood, but whose importation, nevertheless, was believed to be within the principle of that enactment. The amended act is precise and definite in its terms, and obviates all doubt as to its scope and intent.

The act amending the 8th section of the tariff act of 30th July, 1846, it will be seen, makes no change in existing laws, as construed by the Department, except to place dutiable imports, however procured, by purchase or otherwise, on the same footing as to the privilege of adding in the entry to the costs or value given in the invoice, and their liability to additional duty for undervaluation.

HOWELL COBB,  
*Secretary of the Treasury.*

AN ACT REDUCING THE DUTY ON IMPORTS, AND FOR OTHER PURPOSES.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That on and after the first day of July, eighteen hundred and fifty-seven, ad valorem duties shall be imposed, in lieu of those now imposed upon goods, wares and merchandise, imported from abroad into the United States, as follows, viz:

SECTION 20 of the act approved 30th August, 1842, entitled "An act to provide revenue from imports, and to change and modify existing laws imposing duties on imports, and for other purposes."

That there shall be levied, collected, and paid, on each and every non-enumerated article which bears a similitude, either in material, quality, texture, or the use to which it may be applied, to any enumerated article chargeable with duty, the same rate of duty which is levied and charged on the enumerated article which it most resembles in any of the particulars before mentioned; and if any non-enumerated article equally resembles two or more enumerated articles, on which different rates of duty are chargeable, there shall be levied, collected, and paid, on such non-enumerated article, the same rate of duty as is chargeable on the article which it resembles paying the

highest duty ; and on all articles manufactured from two or more materials, the duty shall be assessed at the highest rates at which any of its component parts may be chargeable.

---

**AN ACT** to amend the twenty-eighth section of the act of Congress, approved the thirtieth of August, one thousand eight hundred and forty-two, entitled “ An act to provide revenue from imports, and to change and modify existing laws imposing duties on imports, and for other purposes,” prohibiting the importation of obscene and indecent articles, so as more effectually to accomplish the purposes for which that provision was enacted.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the twenty-eighth section of the act of Congress, approved the thirtieth of August, one thousand eight hundred and forty-two, and entitled “ An act to provide revenue from imports, and to change and modify existing laws imposing duties on imports, and for other purposes,” be amended as follows : The importation of all indecent or obscene articles, prints, paintings, lithographs, engravings, images, figures, daguerreotypes, photographs, and transparencies, is hereby prohibited, and no invoice or package whatever, or any part thereof, in which any such articles are contained, shall be admitted to entry ; and all invoices and packages whereof any such articles shall compose a part, are hereby declared to be liable to be proceeded against, seized, and forfeited by due course of law, and the said articles shall be forthwith destroyed.

Approved March 2, 1857.

---

**AN ACT** to amend the act reducing the duty on imports, and for other purposes, passed July 30, 1846.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the 8th section of the act approved July 30, 1846, and entitled “ An act reducing the duty on imports, and for other purposes,” be amended as follows :

**SEC. 2.** *And be it further enacted,* That it shall be lawful for the owner, consignee, or agent of imports which have been actually purchased, or procured otherwise than by purchase, on entry of the same, to make such addition in the entry to the cost or value given in the

invoice as, in his opinion, may raise the same to the true market value of such imports in the principal markets of the country whence the importations shall have been made; and to add thereto all costs and charges which, under existing laws, would form part of the true value at the port where the same may be entered, upon which the duties should be assessed. And it shall be the duty of the collector within whose district the same may be imported or entered, to cause the dutiable value of such imports to be appraised, estimated, and ascertained, in accordance with the provisions of existing laws; and if the appraised value thereof shall exceed, by ten per centum or more, the value so declared on the entry, then, in addition to the duties imposed by law on the same, there shall be levied, collected, and paid a duty of twenty per centum ad valorem on such appraised value: *Provided, nevertheless,* That under no circumstances shall the duty be assessed upon an amount less than the invoice or entered value, any law of Congress to the contrary notwithstanding.

Approved March 3, 1857.
